**Arthur YEN**

Chief Executive Officer  
Solomon Telekom Company Ltd  
PO Box 148, Honiara, Solomon Islands

**Licence to carry on telecommunications business everywhere within Solomon Islands**

This letter is to confirm that further to the provisions of Part 5 of the Telecommunications Act 2009, the Telecommunications Commission alone has the power to authorize the carrying on of telecommunications business, anywhere within Solomon Islands.

Provincial and city officials do not have any power in this regard, and were they to attempt to usurp the Commission's country-wide jurisdiction over telecommunications business, the Commission will consider appropriate legal action against them.

Moreover, any organisation which acted on a telecommunications business licence issued by a provincial or city official would be acting illegally and would face prosecution by the Commission.

The Commission also confirms that further to the individual licence which it holds under the Telecommunications legislation, Our Telekom is authorized to carry on telecommunications business everywhere within the country.
